## Outcomes of the program

- Immunological Proficiency
- Vaccine Expertise
- Clinical Immunology Application
- Infectious Disease Prevention
- Cutting-Edge Knowledge

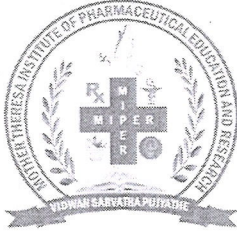

## Conclusion:

The Clinical immunology and vaccines are the emerging technology in clinical application. This provide the cutting-edge knowledge of infectious disease prevention. Enhances the understanding of the immune response in health and disease after vaccination by showcasing discoveries in clinical laboratory, and vaccine immunology. 26 students enrolled for the certificate course and all the 26 students passed the course.

## Two Weeks Add On Program

This is to inform all the B Pharmacy students of MIPER that we are pleased to inform you that we have introduced a Certificate Course on Pharmaceutical Bioinformatics for two weeks.

### Objectives

- Keeping Abreast of Industry Trends
- Bioinformatics Tools
- Pharmacogenomics
- Chemo informatics
- Systems Biology
- Data Analysis Skills
- Integration of Omics Data

### Resource Person

**Dr. S. Shahensha**

Associate Professor,  
Dept of Pharm. Chemistry  
MIPER

☎ 9959856721

✉ shahensha7@gmail.com

## MOTHER THERESA INSTITUTE OF PHARMACEUTICAL EDUCATION & RESEARCH (MIPER), KURNOOL

### Pharmaceutical Bioinformatics

Pharmaceutical bioinformatics is a research field related to bioinformatics but with the focus on studying biological and chemical processes in the pharmaceutical area; to understand how xenobiotics interact with the human body and the drug discovery process.

### Program Dates

12-9-22 to 24-9-22

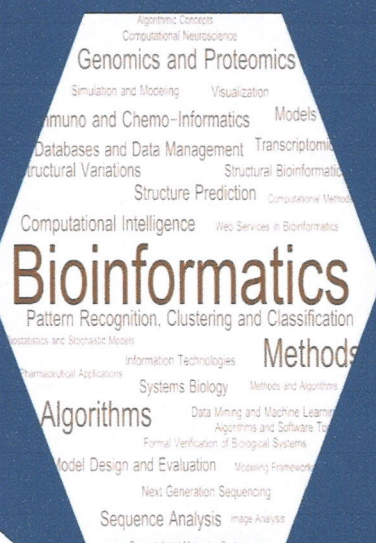

### Program Coordinator

Mr R Raghuveer

### Conclusion:

Pharmacotherapy is a cornerstone of modern healthcare that continues to evolve, driven by advances in science, technology, and research. It holds the promise of improving health outcomes, enhancing patient care, and contributing to the overall well-being of individuals and communities around the world. Effective pharmacotherapy requires a patient-centred, evidence-based, and interdisciplinary approach, guided by ethical principles and a commitment to lifelong learning. 26 students enrolled for the Certificate course and all the 26 students passed the course.

## PROGRAM REPORT

**NAME OF THE PROGRAM:** A two weeks Add on certificate Program on “**Advanced drug formulation techniques**”

**Date:** 14/11/22 to 26/11/22

**Details of resource person:**

Mr. Marikanti Raj Kumar  
Associate Professor,  
Dept of Pharmaceutics  
[marikantiraj@gmail.com](mailto:marikantiraj@gmail.com)

**No. of Students attended:**29

A two weeks Add on Certificate Program on “**Advanced drug formulation techniques**” was conducted for B Pharmacy students for the academic year 2022-23. The course enabled students to understand the core components of Advanced drug formulation. Mr. Marikanti Raj Kumar, Associate Professor, MIPER, Kurnool was the resource person for the certificate program.

**Objectives of the program**

- In-Depth Formulation Knowledge
- Formulation Design Skills
- Characterization Techniques
- Regulatory and Quality Considerations
- Application to Therapeutics

E-mail : miperknlapindia@gmail.com | Website : www.miperknlapindia.ac.in

## Outcomes of the program

- Advanced Formulation Expertise
- Formulation Design Competence
- Analytical Proficiency
- Regulatory Compliance
- Therapeutic Innovation

## Conclusion:

Increased drug efficacy, site-specific administration, and reduced toxicity/side effects are only some of the therapeutic benefits of these Advance systems. At present, stimuli responsive drug delivery system, which is termed advanced drug delivery system (ADDS), is an exciting pharmaceutical approach. It has widely usage especially for drug resistive chronic diseases treatment where gatekeeping on demand drug release into only specific site could be achieved successfully. The Advanced Drug Formulation Techniques Seminar provided an in-depth exploration of cutting-edge technologies and methodologies in the field of pharmaceutical formulation. This program aimed to equip participants with knowledge and insights into advanced drug delivery systems, novel formulation techniques, and emerging trends that are shaping the future of drug formulation. Total 29 students enrolled for the Certificate course and all the 29 students successfully completed the course.

## Conclusion

Clinical trials management plays a pivotal role in advancing medical science and improving healthcare outcomes. It requires a comprehensive and ethical approach, with a strong emphasis on patient safety, data integrity, and regulatory compliance. Successful clinical trials management can lead to the development of safe and effective medical interventions that have a positive impact on public health and patient well-being. 25 students enrolled for the certificate course and all the 25 students passed the course.

## Conclusion:

Pharmaceutical laws and ethics form the cornerstone of the pharmaceutical and healthcare industries. They serve to protect patients, ensure the quality and efficacy of pharmaceutical products, promote transparency and accountability, and balance the interests of various stakeholders. Ultimately, they are instrumental in fostering trust between healthcare providers, pharmaceutical companies, and patients, with the overarching goal of improving public health and well-being. 25 students enrolled for the certificate course and all the 25 students passed the course.

### Outcomes of the program

- Formulation Expertise
- Scale-Up Skills
- Product Innovation
- Improved Patient Outcomes
- Efficient Drug Development
- Ethical and Regulatory Awareness
- Lifelong Learning

### Conclusion:

Pharmaceutical formulation development serves as the bridge between drug discovery and patient care. It plays a pivotal role in bringing innovative therapies to the market, improving drug delivery, and advancing healthcare worldwide. As the pharmaceutical industry continues to evolve, the importance of formulation development in enhancing patient outcomes remains undeniable. 27 students enrolled for the certificate course and all the 27 students passed the course.

## PROGRAM REPORT

**NAME OF THE PROGRAM:** A two weeks Add on Certificate Program on “**Therapeutic drug monitoring**”

**Date:** 6/2/23 to 20/2/23

### **Details of Resource person:**

Mrs. Rehana Banu  
Assistant professor  
Dept. of Pharmacology  
9346336449  
[sowkya86@gmail.com](mailto:sowkya86@gmail.com)

**No. of Students attended:** 26

Add on certificate course titled **Therapeutic drug monitoring** was conducted for B Pharmacy students for the academic year 2022-23. The course enabled students to understand the core components of Therapeutic drug monitoring. Mr, Rehana Banu, Assistant Professor, MIPER, Kurnool was the resource person for the certificate program.

### **Objectives of the program**

- Understanding TDM Principles
- Laboratory Techniques
- Clinical Application
- Patient Safety
- Regulatory and Ethical Considerations

### **Outcomes of the program**

- TDM Expertise
- Clinical Decision-Making
- Laboratory Competence
- Patient Safety Advocacy
- Ethical Practice

## Conclusion:

Therapeutic Drug Monitoring is a valuable tool in modern healthcare that empowers healthcare providers to make informed decisions, tailor treatment plans to individual patients, and achieve better treatment outcomes. It enhances patient safety, prevents adverse events, and contributes to the efficient and effective use of medications across various medical specialties. 26 students enrolled for the certificate course and all the 26 students passed the course. The Therapeutic Drug Monitoring (TDM) add on certificate program provided a comprehensive exploration of the principles, applications, and advancements in the field of monitoring drug concentrations in patients. This program aimed to equip healthcare professionals with the knowledge and skills necessary for optimizing drug therapy, ensuring efficacy, and minimizing potential adverse effects through personalized medication management.

# Two weeks add on program on Pharma Regulatory Filings and submissions

15/02/2023 To 04/03/2023

## OBJECTIVE OF THE PROGRAM

- Understanding Regulatory Frameworks
- Drug Development Lifecycle
- Regulatory Documentation
- Quality Standards
- Interactions with Regulatory Agencies
- Adverse Event Management

## EXPECTED OUTCOMES

- Enhanced Patient Safety
- Adaptability to Regulatory Changes
- Critical Thinking and Problem-Solving
- Effective Regulatory Strategy
- Labelling and Product Information Compliance

## Conclusion:

Pharma Regulatory Filings and Submissions underscore the importance of regulatory affairs professionals in the pharmaceutical and biotechnology industries. Their work is essential for the development of safe and effective medicines, the protection of public health, and the advancement of the pharmaceutical sector as a whole. The Pharma Regulatory Filings and Submissions Seminar provided a comprehensive overview of the regulatory landscape governing the pharmaceutical industry. Focused on the intricacies of regulatory filings and submissions, the program aimed to equip participants with the knowledge and skills required for navigating regulatory requirements, ensuring compliance, and expediting the approval process for pharmaceutical products. Total 24 students enrolled for the certificate course and all the 24 students passed the course.
