A TWO WEEKS ADD ON PROGRAM ON: REGULATORY AFFAIRS

Date: 01-06-2020 to 13-06-2020

We are pleased to inform you that MIPER have introduced a add on program on "Regulatory Affairs". The program is aimed to bridge the gap between the academic and industry needs.

Objectives of Add on Program - Regulatory Affairs

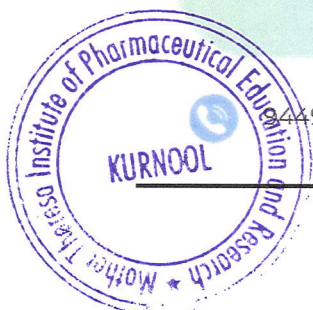

- Regulatory Affairs Documentation
- Product Registration and Approval
- Understanding Regulatory Frameworks
- Regulatory Audits and Inspections
- Product Life Cycle Management

Expected Outcomes of Add on Program - Regulatory Affairs

- Regulatory Expertise
- Quality Assurance Mastery
- Pharmacovigilance and Safety Reporting
- Change Control and Variations
- Regulatory Affairs Documentation

Circular

We are pleased to inform you that we have introduced **A Two Weeks Add on Certificate Program on Sterile Product Manufacturing** from **01-09-2020 to 14-09-2020**. To bridge the gap between the academic and industry need, Value-added certificate courses are conducted regularly at MIPER. It is important for higher education institutions to supplement the curriculum to make students better prepared to meet industry demands as well as develop their own interests and aptitudes. Students who are pursuing II Year I Sem B. Pharmacy are eligible to enroll for this add on certificate course. Students are hereby instructed to contact the course coordinator for more details about course structure, curriculum & criteria for enrolling the course.

PROGRAM REPORT

NAME OF THE PROGRAM: A Two Weeks Add on Certificate Program on Solid Waste Management

Date: 17/8/20 to 29/8/20

Details of resource person:

Mrs D J Sravanthi
Associate Professor,
Dept of Pharmaceutical analysis
MRR College, Nandigama
8074487838
sravanthi.pharma@gmail.com

No. of Students attended: 24

A Two Weeks Add on Certificate Program on **Solid Waste Management** was conducted for B. Pharmacy students for the academic year 2020-21. The course enabled students to understand the core components of Solid Waste Management. Mrs. D J SRAVANTHI, Associate Professor, MRR College, Nandigama was the resource person for the certificate program.

Objectives of the program

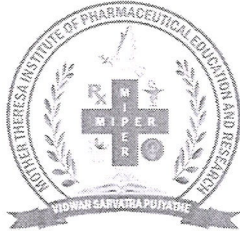

- Waste Generation and Characterization
- Environmental Impact Awareness
- Waste Reduction and Minimization
- Composting and Organic Waste Management
- Waste Management Planning

Outcomes of the program

- Health and Safety Consciousness
- Economic Viability
- Waste Management Planning
- Waste-to-Energy Knowledge

Conclusion:

Solid waste management in safeguarding the environment, enhancing public health, and conserving resources for current and future generations. Graduates of such courses play an essential part in addressing the global waste management challenges and promoting a more sustainable and resilient future. 24 students enrolled for the Certificate course and all the 24 students passed the course. The success of the Two-Week Waste Management Add-On Program highlighted the importance of education and community involvement in addressing the global challenge of waste management.

Circular

This is to inform all the B Pharmacy students that we are pleased to inform you that we have introduced, A two weeks Add on Certificate Program on **Pharmaceutical Nanotechnology** from **15/3/2021** to **27/3/2021**. The Certificate Courses are conducted to enlighten students at MIPER in different areas of subjects for giving opportunities in careers. Students are hereby instructed to enrol for the certificate course on or before **10-03-2021**, and contact the course coordinator for more details about course structure, curriculum & criteria for enrolling the course.

Two Weeks Add on Program

Dear all years of B Pharmacy students that we are pleased to inform you that we have introduced a Certificate Course on Pharmaceutical Nanotechnology for two weeks from 15/3/21 to 27/3/21. The Certificate Courses are conducted to enlighten students for bright career

Pharmaceutical Nanotechnology

15-3-21 to 27-3-21

OBJECTIVES

- Understanding Nanotechnology Fundamentals
- Drug Delivery Systems
- Formulation Development
- Characterization Techniques
- Biocompatibility and Safety

EXPECTED OUTCOMES

- Research Opportunities
- Specialized Knowledge
- Advanced Laboratory Skills
- Entrepreneurial Opportunities
- Contribution to Healthcare

Conclusion

Pharmaceutical Nanotechnology holds great promise for improving the efficacy, safety, and precision of drug therapies and diagnostics. As it continues to advance, it has the potential to address some of the most pressing challenges in healthcare and drug development, offering new hope for patients and providing opportunities for innovation in the pharmaceutical industry. A total of 27 students were enrolled for the Add on certificate course and all the 27 students secured the certificates. The Pharmaceutical Nanotechnology Seminar provided pharmacy graduates with a comprehensive overview of the transformative role of nanotechnology in pharmaceuticals. The program aimed to inspire graduates to explore innovative avenues in drug development and contribute to advancements in patient care.

Conclusion

Pharmaceutical supply chain management plays a critical role in ensuring the availability, safety, and quality of medications to patients worldwide. Pharmaceutical supply chain management is vital for ensuring the timely availability of safe and effective medications to patients, navigating a complex and regulated environment, and adapting to evolving challenges and technologies. It requires a holistic approach that prioritizes patient needs, compliance, resilience, and sustainability. Total 26 students enrolled for the certificate course and all the 26 students secured the certificates. The Pharmaceutical Supply Chain Management Seminar successfully addressed the complexities of the pharmaceutical supply chain, providing professionals with the knowledge and tools necessary to navigate challenges and optimize efficiency. The program played a crucial role in fostering a culture of continuous improvement and innovation in pharmaceutical supply chain management.
