Conclusion:

BLS courses empower individuals to be everyday heroes, capable of making a critical difference during medical emergencies. By equipping individuals with the ability to respond swiftly and effectively, these courses contribute to safer and more resilient communities, ultimately saving lives and promoting well-being. 21 students enrolled for the certificate course and all the 21 students passed the course. The Basic Life Support certificate program for Pharmacy students successfully achieved its objectives by providing participants with essential skills and knowledge to respond effectively to cardiac arrest scenarios. The hands-on training and emphasis on teamwork and communication contributed to the overall success of the program.

Conclusion:

Ayush and Drug Manufacturing contribute to the growth and sustainability of the Ayush pharmaceutical industry. Graduates play a pivotal role in promoting traditional and alternative medicines, ensuring their quality, and expanding their reach to a global audience. This not only enriches individual careers but also advances healthcare by integrating the best of traditional wisdom with contemporary knowledge and technology. 24 students enrolled for the Certificate course and all the 24 students passed the course. The Ayush and Drug Manufacturing certificate program successfully achieved its objectives by providing pharmacy students with a holistic perspective on healthcare. By integrating traditional Ayush practices with modern drug manufacturing processes, the seminar aimed to prepare future pharmacists for a more inclusive and patient-centric approach to healthcare.
