PROGRAM NAME

24-04-2023

INNOVATIVE DRUG DEVELOPMENT: BRIDGING RESEARCH & ENTERPRENEURSHIP

OBJECTIVE OF THE PROGRAM

Helps the participants to grasp the fundamental concepts of molecular biology including the structures and functions of biological macromolecules like proteins and nucleic acids. Present real-world examples and success stories of drugs discovered or optimised using CADD approaches. Encourage the participants to engage in hands-on activities to apply CADD techniques.

TOPICS TO BE COVERED

- Understanding Molecular Biology
- Computational techniques
- Drug discovery pipeline
- Ethical considerations
- Future trends

ABOUT COLLEGE

Established in 2018, Mother Theresa Institute of Pharmaceutical Education & Research is a premier Institute located in Andhra Pradesh affiliated to JNTUA, Ananthapuramu .

Institute offers a UG Degree course in Medicine & Health Sciences. The course is available in Full Time mode. Mother Theresa Institute of Pharmaceutical Education & Research is a well-known institution for B.Pharma course.

These programs are delivered by highly experienced faculty. Institute offers a course that is approved by AICTE and PCI. Most importantly, this courses with 100 seats is imparted at affordable fees, which increase accessibility and allow students the opportunity to gain knowledge and skills in their chosen field.

For students institute have facilities & infrastructure like Auditorium, Boys Hostel, Cafeteria, Girls Hostel, Gym, Hospital / Medical Facilities, Hostel, Labs, Library, Sports Complex, Wi-Fi Campus.

Circular

We are pleased to announce an upcoming event titled "**A Seminar on Innovative Drug Development: Bridging Research and Entrepreneurship.**" This event aims to bring together professionals from the fields of pharmaceutical research, entrepreneurship that will take place on **24-04-2023** at MIPER auditorium organized by MIPER, Kurnool and is open to all the students of B. Pharmacy who have interest in advancing their knowledge of pharmaceutical research.

Seminar details:

Topic: A Seminar on Innovative Drug Development: Bridging Research and Entrepreneurship

Date: 24-04-2023

PROGRAM REPORT

DATE: 25-04-2023

Program Name: A Seminar on Innovative Drug Development: Bridging Research and Entrepreneurship

Date: 24-04-2023

Venue: MIPER auditorium

No. of participants: 30

Details of Resource person:

P. Madhavi Latha

Professor

Dept of Ph. Analysis

Viswanadha Institute of Pharmaceutical Sciences

Email: madhavipedapudi@yahoo.com

Mobile: 8500091682

TOPICS COVERED:

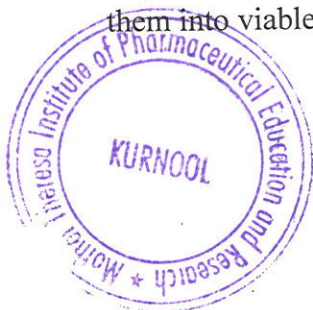

- ✓ Drug Discovery and Development Process
- ✓ Translational Research
- ✓ Regulatory Affairs and FDA Approval
- ✓ Entrepreneurship in the Pharmaceutical Industry
- ✓ Intellectual Property and Licensing

Objective of the program:

- Accelerating Drug Discovery
- Stimulating Entrepreneurship
- Showcasing Success Stories
- Promoting Collaboration
- Navigating Regulatory Challenges

PROGRAM OUTCOME:

- Explore funding options and strategies for innovative drug development projects, including opportunities from government agencies, venture capital, and private investors.
- Inspire and support entrepreneurs to take innovative research findings and transform them into viable drug development ventures.

Program outcomes:

- The design of synthetic routes to natural products and other medicinally relevant organic compounds were discussed. Classic and modern organic reactions including asymmetric synthesis catalysis to be introduced and their application in synthetic planning was discussed. The reactions are systematised on the basis of the properties of the functional groups, and in addition environmental aspects are discussed.
- Application of chemical transformations in a planned fashion to convert simple compounds into complex molecules is analysed, discussed and illustrated with examples from the chemical and pharmaceutical sciences.
- Important compounds found in nature or used for various purposes in daily life are highlighted.
- Importance for the identification of heterocyclic compounds containing Sulphur, Oxygen, Nitrogen was discussed.
- Molecular modelling and molecular docking topics were highlighted in the session.
- How the molecular docking is converted to computer aided drug design was discussed.
- Topics like lead molecular identification and pharmacophore were discussed.

A Guest Lecture on

27-02-2023

UNDERSTANDING & APPLICATION OF ADVANCED PHAEMACEUTICAL ORGANIC CHEMISTRY FOR GPAT

OBJECTIVE

- To understand the fundamental concepts of organic chemistry, including the structure, properties, and reactivity of organic compounds, understanding of advanced organic chemistry topics such as stereochemistry, reaction mechanisms and organic synthesis.
- Apply the principles of organic chemistry to solve complex problems in the field of pharmacy and to develop critical thinking and analytical skills necessary to evaluate and interpret

TOPICS TO BE COVERED

1. Add a Classification and sources of organic compounds
2. Hybridization of carbon
3. Bond lengths, bond angles, and bond energies
4. Hyperconjugation
5. Aromaticity and chemistry of aromatic compounds

CIRCULAR

This is to inform all the VI semester and VIII semester students of MIPER, B Pharmacy that the Guest lecture will be held in our college as per below mentioned details. All students are strictly instructed to remain present in the lecture on sharp time.

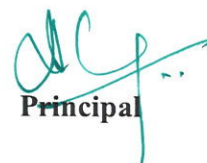

Name of the Guest: Dr. M. Vijaya Jyothi

Topic: "Understanding and Application of Advanced Pharmaceutical Organic chemistry for GPAT"

Date and Time: 27-02-2023 @ 9:30 A.M to 10:30 A.M

Venue: Auditorium, MIPER

PROGRAM REPORT

Date: 27-02-2023

Program name: "Understanding and Application of Advanced Pharmaceutical Organic chemistry for GPAT"

Date of activity: 25-02-2023

Venue: MIPER auditorium

Details of resource person:

Dr. M. Vijaya Jyothi
Professor
Dept of Pharmaceutical Chemistry
Raghavendra Institute of Pharmaceutical Education and Research,
Anantapur
Mobile: 9440158304

No. of participants: 139

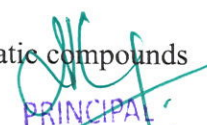

Objective of the program:

To understand the fundamental concepts of organic chemistry, including the structure, properties, and reactivity of organic compounds, understanding of advanced organic chemistry topics such as stereochemistry, reaction mechanisms, and organic synthesis.

Apply the principles of organic chemistry to solve complex problems in the field of pharmacy and to develop critical thinking and analytical skills necessary to evaluate and interpret scientific data.

Topics covered:

1. Classification and sources of organic compounds
2. Hybridization of carbon
3. Bond lengths, bond angles, and bond energies
4. Hyperconjugation
5. Aromaticity and chemistry of aromatic compounds

PROTECTING INNOVATION: INTELLECTUAL PROPERTY RIGHTS IN PHARMACEUTICAL RESEARCH

OBJECTIVE OF THE PROGRAM

IPR aims to create a balanced and supportive environment for pharmaceutical innovation while ensuring that the benefits of new medicines are accessible and affordable to those who need them. Specialized mechanisms such as orphan drug designations and market exclusivity, can incentivize research on neglected diseases that may not have a large commercial market.

COORDINATOR

Dr. S SHENSHA

ASSOCIATE PROFESSOR

MIPER

<https://www.miperknlapindia.ac.in/>

TOPIC TO BE COVERED

- Ensuring Quality and safety in Pharmaceutical industry
- Balancing Access and incentives
- Preventing counterfeiting and unauthorized production
- Encouraging research on neglected diseases.
- Respecting Ethical and Legal standards.

Circular

We hope this message finds you in good health and high spirits. As part of our commitment to nurturing a culture of innovation and responsible research, we are pleased to announce an upcoming seminar on **"Protecting innovation: Intellectual Property Rights in Pharmaceutical research."** This seminar aims to provide you with valuable insights into the world of IPR, especially as it pertains to the pharmaceutical industry. We believe that this knowledge will not only enrich your academic journey but also prepare you for future endeavours in the field of pharmaceutical research.

Seminar details:

PROGRAM REPORT

Date: 11-02-2023

Program name: A Seminar on Protecting innovation: Intellectual Property Rights in Pharmaceutical research

Date: 09-02-2023

Venue: MIPER auditorium

No. of participants: 40

Details of resource person:

Dr. B Padma Sri

Associate Professor

Dept of Pharmaceutics

Sri Venkateshwara College of Pharmacy, Ethcherla, Srikakulam

Mobile: 8790837966

Objective of the program:

IPR aims to create a balanced and supportive environment for pharmaceutical innovation while ensuring that the benefits of new medicines are accessible and affordable to those who need them. Specialized mechanisms such as orphan drug designations and market exclusivity, can incentivize research on neglected diseases that may not have a large commercial market.

Topics covered:

- Ensuring Quality and safety in Pharmaceutical industry
- Balancing Access and incentives
- Preventing counterfeiting and unauthorized production
- Encouraging research on neglected diseases.
- Respecting Ethical and Legal standards.

Program outcomes:

To Encompass a range of legal, economic, and ethical considerations that shape the pharmaceutical industry's landscape. These outcomes influence innovation, access to medicines, market dynamics, and the overall progress of healthcare.

ABOUT COLLEGE

Established in 2018, Mother Theresa Institute of Pharmaceutical Education & Research is a premier Institute located in Andhra Pradesh affiliated to JNTUA, Ananthapuramu .

Institute offers a UG Degree course in Medicine & Health Sciences. The course is available in Full Time mode. Mother Theresa Institute of Pharmaceutical Education & Research is a well-known institution for B.Pharm course.

These programs are delivered by highly experienced faculty. Institute offers a course that is approved by AICTE and PCI. Most importantly, this courses with 100 seats is imparted at affordable fees, which increase accessibility and allow students the opportunity to gain knowledge and skills in their chosen field.

For students institute have facilities & infrastructure like Auditorium, Boys Hostel, Cafeteria, Girls Hostel, Gym, Hospital / Medical Facilities, Hostel, Labs, Library, Sports Complex, Wi-Fi Campus.

Ratnam Institute of Pharmacy, Nellore
Mobile: 8464042945

TOPICS COVERED:

- Start-up Ecosystem in Pharmaceuticals
- Pharmaceutical Research and Development
- Business Models for Pharmaceutical Start-ups
- Challenges and Opportunities

Objective of the program:

- Networking and Collaboration
- Regulatory Compliance
- Market Analysis
- Research Exploration
- Entrepreneurial Education

PROGRAM OUTCOME:

Participants in the program gained a deeper understanding of the pharmaceutical industry, including its regulatory landscape, market dynamics, and key success factors. Start-ups have a better understanding of regulatory requirements and processes, helping them navigate the complex regulatory landscape more effectively.

PROGRAM REPORT

DATE: 21-01-2023

Program Name: A Seminar on PrEP (Pre-exposure Prophylaxis) and PEP (Post exposure Prophylaxis): A Pharmacist's Guide in clinical research

Date of activity: 20-01-2023

Venue: MIPER auditorium

No. of participants: 26

Details of Resource person:

Mr. M. Srinivasulu

Professor

Ratnam Institute of Pharmacy, Nellore

Dept of Ph. Analysis

Mobile: 9505811202

TOPICS COVERED:

- Introduction to HIV/AIDS
- PrEP Fundamentals
- PEP Essentials
- Pharmacology of PrEP and PEP
- Clinical Research and Trials

Objective of the program:

- Understand the Basics of HIV/AIDS
- Explore the Principles of PrEP and PEP
- Examine Pharmacological Aspects
- Master Clinical Research in HIV Prevention

PROGRAM OUTCOME:

- Students should be able to explain the modes of HIV transmission, describe the global prevalence of HIV/AIDS, and discuss the impact of the disease on public health.
- Students should be proficient in understanding and evaluating the design and execution of clinical trials related to PrEP and PEP. They should be able to discuss ethical considerations, interpret clinical trial data, and explain the regulatory approval process for these prevention methods.

ABOUT COLLEGE

Established in 2018, Mother Theresa Institute of Pharmaceutical Education & Research is a premier Institute located in Andhra Pradesh affiliated to JNTUA, Ananthapuramu .

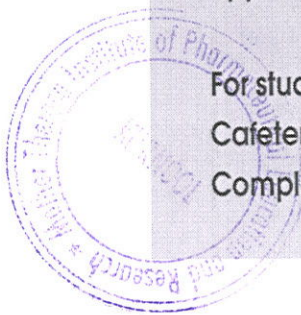

Institute offers a UG Degree course in Medicine & Health Sciences. The course is available in Full Time mode. Mother Theresa Institute of Pharmaceutical Education & Research is a well-known institution for B.Pharm course.

These programs are delivered by highly experienced faculty. Institute offers a course that is approved by AICTE and PCI. Most importantly, this courses with 100 seats is imparted at affordable fees, which increase accessibility and allow students the opportunity to gain knowledge and skills in their chosen field.

For students institute have facilities & infrastructure like Auditorium, Boys Hostel, Cafeteria, Girls Hostel, Gym, Hospital / Medical Facilities, Hostel, Labs, Library, Sports Complex, Wi-Fi Campus.

PROGRAM ON

ONCOLOGY DRUG DEVELOPMENT AND APPROVAL PROCESS: INSIGHTS FOR PHARMACISTS IN RESEARCH

26-11-2022

OBJECTIVE OF THE PROGRAM

Gain a deep understanding of the various stages involved in oncology drug development, from initial research and preclinical testing to clinical trials, regulatory submissions, and post-marketing surveillance. Participants will be better equipped to contribute meaningfully to the advancement of oncology research and the development of new therapies that can improve the lives of cancer patients.

TOPICS TO BE COVERED

- Oncology drug development lifecycle
- Regulatory Pathways and Approval Process
- Pharmacists' Role in Clinical Trials
- Patient-Centered Care in Oncology
- Emerging Trends and Challenges in Oncology Research

PROGRAM REPORT

DATE: 16-10-2022

Program Name: A Seminar on Precision Medicine in Oncology; Role of Pharmacists in Tailoring Cancer Treatments

Date: 15-10-2022

Venue: MIPER auditorium

No. of participants: 55

Details of Resource Person

Dr. K. Rafiq Ahmad,
MBBS MD
Paediatrics KIMS
Kurnool

TOPICS COVERED:

- Genomic and Molecular Profiling
- Pharmacogenomics and Drug Selection
- Clinical Implementation of Precision Medicine
- Pharmacists in Precision Oncology Care

Objective of the program:

- Understand the Principles of Precision Medicine in Oncology
- Analyse Genomic and Molecular Data for Treatment Decisions
- Explore the Role of Pharmacists in Precision Oncology Care
- Apply Precision Medicine Principles in Clinical Practice

PROGRAM OUTCOME:

- Students will be able to apply precision medicine principles to real-world patient cases, demonstrating their ability to tailor cancer treatments based on individual patient profiles and collaborate effectively within a multidisciplinary team.
- to effectively participate in precision medicine approaches in oncology, emphasizing the integral role of pharmacists in optimizing cancer care for individual patients.

PROGRAM NAME

**“Emotional intelligence
in Pharmaceutical
research: Enhancing
Patient Relationships”**

DATE - 23 SEPTEMBER, 2022 VENUE - MIPER AUDITORIUM

OBJECTIVE OF THE PROGRAM

Enhance participants' ability to recognize and effectively manage their emotions during patient interactions, resulting in improved communication skills that foster trust, empathy, and patient-centered care. Equip participants with stress management techniques and emotional resilience strategies, enabling them to maintain emotional balance and handle high-pressure situations in pharmaceutical research, ultimately improving patient relationships and the overall research process.

Coordinator

Mrs. M Rehana Banu
Assistant Professor, MIPER

TOPICS TO BE COVERED

1. Understanding emotional intelligence (EI)
2. Effective communication strategies
3. Stress management in research
4. Conflict resolution and team work
5. Cultural sensitivity and diversity

PROGRAM REPORT

Date: 24-09-2022

Program name: Emotional intelligence in Pharmaceutical research: Enhancing Patient Relationships

Date of activity: 23-09-2022

Venue: MIPER auditorium

Details of resource person:

Dr. J. Sumalatha

Professor

Dept of Pharmaceutical Chemistry

P. Ramireddy Memorial College of Pharmacy, Kadapa

Mobile: 9989625555

No. of participants: 40

Objective of the program:

Enhance participants' ability to recognize and effectively manage their emotions during patient interactions, resulting in improved communication skills that foster trust, empathy, and patient-centred care. Equip participants with stress management techniques and emotional resilience strategies, enabling them to maintain emotional balance and handle high-pressure situations in pharmaceutical research, ultimately improving patient relationships and the overall research process.

TOPICS COVERED:

1. Understanding emotional intelligence (EI)
2. Effective communication strategies
3. Stress management in research
4. Conflict resolution and team work
5. Cultural sensitivity and diversity

PROGRAM OUTCOME:

The program will empower participants to leverage emotional intelligence as a valuable asset in their pharmaceutical research careers, ultimately leading to more patient-centered and successful outcomes. Participants will leave the program with a personalized action plan for enhancing their emotional intelligence and applying it to their roles in pharmaceutical research.

PROGRAM REPORT

DATE: 19-08-2022

Program Name: A Seminar on Pharmacists as Innovators: Navigating the Entrepreneurial Journey

Date: 18-08-2022

Venue: MIPER auditorium

No. of participants: 63

Details of Resource person:

Mr. B Santosh

Associate Professor

Dept of Pharmaceutics

Sri Shivani College of Pharmacy, Warangal

Email: borisantosh45@gmail.com

TOPICS COVERED:

- ✓ Identifying Opportunities in Pharmacy Innovation
- ✓ Innovation Strategies in Pharmacy Practice
- ✓ Legal and Regulatory Considerations
- ✓ Pharmacist-led Innovation Case Studies

Objective of the program:

- Mindsets Fostering Entrepreneurial
- Promoting Innovative Pharmacy Practices
- Enhancing Patient-Centric Care
- Creating Sustainable Ventures

PROGRAM OUTCOME:

- Entrepreneurial Pharmacist Network: Establish a network of pharmacists who have embraced entrepreneurship, fostering collaboration, idea sharing, and mentorship among like-minded individuals.
- Innovative Healthcare Solutions: Drive the development of innovative healthcare solutions and products that address unmet patient needs and contribute to improved healthcare delivery.
- Improved Patient Care: Enhance patient care through the implementation of innovative pharmacy practices, resulting in better medication management, patient education, and overall health outcomes.
