MIPER extends its activities beyond the campus, recognizing its responsibility to contribute to environmental sustainability. It is committed to strictly implementing activities aligned with the principles of an environmental management system for educational institutions. The key elements of our institutional environmental policy include:

- Maintaining resource quality for improved health, ensuring optimal use of natural resources while minimizing wastage.
- To create awareness on environment, global warming, Say no to plastic, Cleanliness, communicable diseases.
- Adopting green practices such as solar power utilization,
- Enhancing greenery on and around the campus, discouraging plastic use, and implementing rainwater harvesting.
- We emphasize the strict promotion and adherence to the 3Rs (Reduce, Reuse, and Recycle) aim to instil environmental consciousness among stakeholders to prevent pollution and misuse of resources.

Our goal is to strengthen eco-green consciousness among all institute stakeholders and to create awareness to people beyond the campus.
